COMPANY OVERVIEW

Introduction

We are thrilled to introduce Gauteng Aluminium, the latest addition to the esteemed Alumint family. Building on the success of Alumint (PTY) Ltd, established in 2011, Gauteng Aluminium is our new venture dedicated to revolutionizing the aluminum window and door market. With over 22 years of industry experience, we are excited to offer unparalleled expertise and innovative solutions to our clients.

Our Vision

At Gauteng Aluminium, we recognize the evolving needs of the building industry and have identified a significant opportunity to provide premium aluminum products at exceptional value. Our goal is to deliver high-quality, custom-manufactured aluminum windows and doors that meet the highest standards of durability, functionality, and design, all while being cost-effective.

COMPANY OVERVIEW

What We Offer

Custom Manufacturing: We specialize in creating aluminum windows and doors tailored to your exact specifications. Our expert team ensures that each product is crafted to your custom sizes and unique design requirements.

Expertise and Quality: With two decades of industry knowledge, we apply our expertise to every project, ensuring that our products meet stringent quality standards. We use only the best materials and techniques to guarantee superior performance and longevity.

Affordable Pricing: Gauteng Aluminium is committed to providing high-quality solutions at a fraction of the traditional market price. Our efficient manufacturing processes and cost-effective approach enable us to pass significant savings on to our clients.

Premium Features: Windows are plastic-wrapped and doors are taped for protection during transit, ensuring it arrives in impeccable condition. We also use high-quality hardware to ensure smooth operation and durability.

Qualified Installers: We have qualified installers and can quote an additional fee for installation on all products supplied.

Target Market

Our focus is on serving the building industry, including architects, contractors, property developers and the home owners/ entrepreneurs looking to renovate their home or building a new home.

Gauteng Aluminium is positioned to meet the demands of residential, commercial, and industrial projects, offering products that enhance the value and aesthetic appeal of any building.

Pricing

Prices are subject to change without prior notice due to fluctuations in supplier pricing.

We strive to maintain competitive rates, but any price adjustments from our suppliers may impact the final cost.

Contact Us

We invite you to explore how Gauteng Aluminium can contribute to your next project with our expert solutions and competitive pricing.

Do not hesitate to visit our Showroom during working hours

For more information or to discuss your specific needs, please reach out to us at:

DESIGN & CUSTOMISATION

Color Options

Our products are available in a variety of colors to suit your design needs.
Our standard colors include:

**Bronze
PC**

**White
PC**

**Charcoal
PC**

Black

**Natural
Anodised**

Other colours are available at additional cost.
If you wish to get a quotation on an alternative colour, please inform us.

Design and Customization

Each window features high-quality aluminum handles, providing both an attractive finish and long-lasting durability. You have the flexibility to specify your desired sizes for manufacturing. As long as the dimensions fall within a 150mm allowance, there will be no additional cost for size adjustments.

Glass and Safety Compliance

Our windows are manufactured in accordance with the stringent standards set by the Association of Architectural Aluminium Manufacturers of South Africa (AAMSA) and the Southern African Glass and Glazing Association (SAGGA). Glazing certificates are available upon request, ensuring that all glass used meets the highest safety and quality requirements.

All glass in products are clear unless otherwise specified. We have multiple options available:

Multiple tinted options

Sandblasting patterns

Low E

Double Glazing Etc.

Additional Options

Burglar Bars: For enhanced security, burglar bars can be included and will be quoted separately based on your specifications.

Special Glass: Glass sizes and finishes are available on request.

Expandable Security gates: We manufacture expandable security gates based on your specifications, quotations to be done on request.

Production and Services

Manufacturing Period: Production of our windows typically ranges from 3 to 10 working days, depending on the size and complexity of the order.

Crating and delivery/installations: We offer crating, delivery and installation options upon request to ensure a smooth and efficient process from manufacturing to final setup.
Quotation to be supplied upon your request.

If you have any questions or would like to discuss specific requirements, please contact us.
We are here to assist you in choosing the best solutions for your project

TOP HUNG WINDOWS

Design and Customization

Each window features high-quality aluminum handles, providing both an attractive finish and long-lasting durability. You have the flexibility to specify your desired sizes for manufacturing. As long as the dimensions fall within a 150mm allowance, there will be no additional cost for size adjustments.

Windows come with aluminium handles. White handles on white and natural/silver windows, and black on all the other windows.

Additional Options

Burglar Bars: For enhanced security, burglar bars can be included and will be quoted separately based on your specifications.

Special Glass: Glass sizes and finishes are available on request.

SIDE HUNG WINDOWS

Design and Customization

Each window features high-quality aluminum handles, providing both an attractive finish and long-lasting durability. You have the flexibility to specify your desired sizes for manufacturing. As long as the dimensions fall within a 150mm allowance, there will be no additional cost for size adjustments.

Windows come with aluminium handles. White handles on white and natural/silver windows, and black on all the other windows.

Window opening (sash) should not exceed 0.500W x 1.200H.

Additional Options

Burglar Bars: For enhanced security, burglar bars can be included and will be quoted separately based on your specifications.

Special Glass: Glass sizes and finishes are available on request.

VISTA FOLDING STACKING DOORS

Important Installation Note for 5+ Panel Sliding Folding Doors

For the installation of our 5 or more panel sliding folding doors, it is essential that the installer is familiar with the proper procedures for installing the glass, as it is supplied separately from the door.

Key Installation Guidelines:

- The glass should be installed only after the door installation is complete.
- Doors cannot be transported with the glass already installed in the door frame. Doing so may cause the glass to move during transport.
- If the glass is installed prematurely, it may cause the door system to malfunction.
- Specifically, the door may not function properly or close correctly due to the movement of the glass.

To ensure a proper and smooth installation, we strongly recommend hiring an installer with experience in handling glass installation for sliding folding doors. This will help avoid any issues and ensure the door operates as designed. We could also quote accordingly for the installation to be done by our professional team

HEAVY DUTY PALACE SLIDING DOORS

- ✓ 2/3/4/6 Panels Available
- ✓ All sliding panels are on the outside
- ✓ All doors include 6.38mm Laminated clear glass

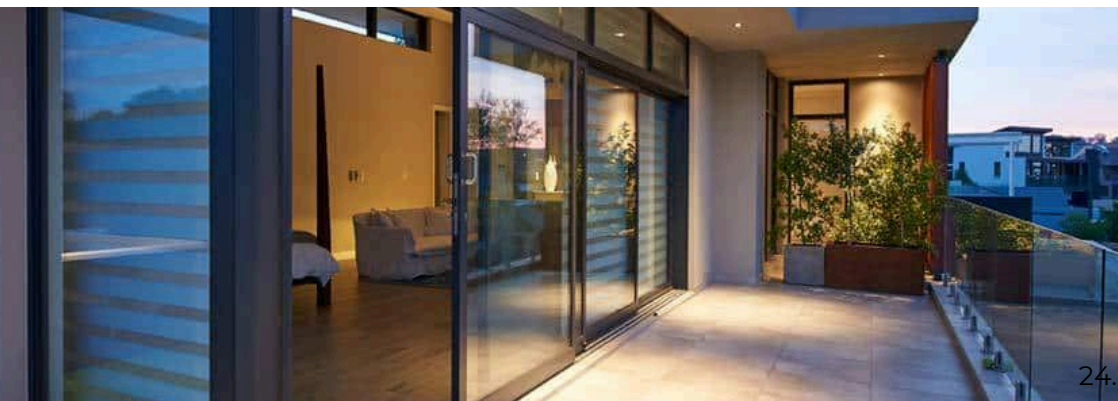

PALACE HEAVY DUTY SLIDING DOOR

Important Installation Note for Sliding Door & Window Systems

Our sliding door systems are designed as a puzzle, with each component supplied separately for ease of handling and installation.

Key Installation Guidelines:

- The frame is supplied separately from the panels with the glass already installed.
- Handles and wheels are pre installed. Stopper no pre-installed.
- The sliding panel should be installed on the outside of the frame, ensuring proper function and alignment and to ensure that the door is waterproof.
- To ensure a seamless and safe installation, we strongly recommend that the client engage an installer familiar with sliding door systems. This will help ensure the door operates correctly and avoid any potential issues during installation. We could also quote accordingly for the installation to be done by our professional team

700 SERIES DOMESTIC SLIDING DOOR

Important Installation Note for Sliding Door & Window Systems

Our sliding door systems are designed as a puzzle, with each component supplied separately for ease of handling and installation.

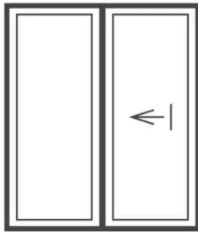

Key Installation Guidelines:

- The frame is supplied separately from the panels with the glass already installed.
- The door stopper and handle are not pre-installed on the panels during manufacturing. This is done to prevent damage during transport. These components must be fitted on-site.
- The sliding panel should be installed on the outside of the frame, ensuring proper function and alignment and to ensure that the door is waterproof.
- To ensure a seamless and safe installation, we strongly recommend that the client engage an installer familiar with sliding door systems. This will help ensure the door operates correctly and avoid any potential issues during installation. We could also quote accordingly for the installation to be done by our professional team
